

Auditoria® + Workday AR Collections

Automate Your Payment and Collections Processes

IMPROVE CASH PERFORMANCE • INCREASE PRODUCTIVITY DELIVER BETTER CUSTOMER SATISFACTION

Auditoria's AR Collections integrates with Workday Financial Management data to increase speed, accuracy, and efficiency in the finance office using AI-enabled SmartBots to automate redundant and manual accounts receivable processes to derive greater cash position visibility.

DIVERSE, TARGETED DUNNING CAMPAIGNS

SmartBots send courtesy notices and dunning based on communications cadences set to specific account criteria and at specified intervals to maximize collections efforts and streamline correspondence, saving countless hours for the AR team.

INTELLIGENT CLASSIFICATION

Manage your customer payments with intelligent, granular classification rules for personalized engagement for each account or payer type. Dynamically recalibrate and reclassify accounts as their payment behavior changes to ensure more accurate payments and reporting.

PRIORITIZED TASKS

Streamline collections teams' efforts with a daily worklist of strategic recommendations and prioritized actions. Curated by SmartBots, the tasks are dynamically updated to maximize efforts and outreach so that age and amount are no longer the only levers to determine a course of action.

CUSTOMER BI-DIRECTIONAL COMMUNICATIONS

SmartBots monitor email inboxes for inquiries and calls to action, engaging and communicating conversationally with internal and external stakeholders. SmartBots set alerts for the collections team to address escalated situations on a case-by-case basis, recovering hundreds of hours previously spent by team members sifting through emails and responding to routine questions.

COLLECTOR CRM

SmartBots collect and populate rich account CRM with detailed notes, reminders, and audit logs for a comprehensive 360-degree view of collections interactions across accounts. All SmartBot-driven and human-driven action is captured, providing detailed threads and granular account analytics that put the collections team in charge with greater visibility and transparency.

AUDITORIA® SMARTPAY INTEGRATED PAYMENTS*

Purpose built for finance, Auditoria SmartPay, powered by Stripe, offers SmartBots that extend AR Collections with full featured enhanced payment processing, automated cash posting, and support for global currencies and payment methods, securely, rapidly, and cost-effectively.

AUDITORIA® SMARTINSIGHTS*

Ventures
Partner

Auditoria is a Workday Ventures Partner, with access to Workday's extensive experience, market know-how, and global reach in the enterprise space. Together, we are helping finance teams work more effectively as companies move toward digital transformation and automation, allowing the office of the CFO to focus on strategy and business initiatives rather than on error-prone manual tasks.

HOW IT WORKS

ADVANCED TECHNOLOGY THAT UNDERSTANDS FINANCE

- Rich Natural Language Processing (NLP) allows SmartBots to perform a range of tasks and communicate to internal and external stakeholders using natural language.
- Next-generation machine learning and artificial intelligence built technology delivers a 10x multiplier in accuracy and productivity.

MAILBOX MONITORING AND ORGANIZATION

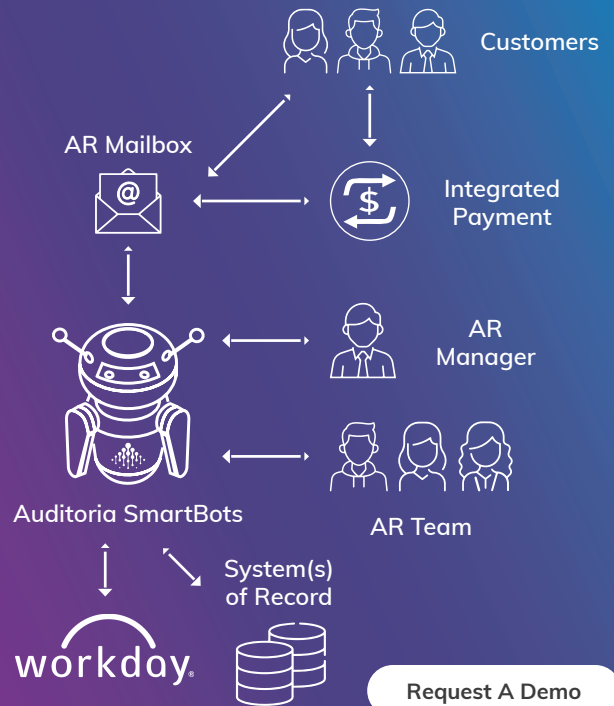

- SmartBots monitor the AR inbox, reading emails and attachments, capturing updates and escalations.
- Emails are labeled to categorize and organize them by type to reduce clutter and streamline responses and next steps for the AR team.

DATA RECONCILIATION WITH SYSTEMS OF RECORD

- Achieve end-to-end tracking, fulfillment, and reconciliation of payments to increase productivity and effectiveness with complete coverage.
- Ensure data written to the system of record is checked and approved before being uploaded to verify inputs and improve accuracy with approval workflows.

Auditoria's SmartBots provide a system of engagement, utilizing the AR inbox and systems of record to automate AR functions to improve cash performance.

HOW WE HELP

RAPID TIME TO VALUE

See value in days, not weeks or months, using automation with minimal IT dependence, thanks to pre-built integrations with leading ERP, collaboration, and email systems.

IMPROVED COMPLIANCE AND GOVERNANCE

Deliver accurate, complete, and timely financial reporting to shareholders, investors, and auditors by ensuring that data is always audit-ready.

SECURITY AND PEACE OF MIND

Remove the stress and friction in the finance function with a secure and reliable system of unparalleled financial precision that captures an audit trail of activities in the system.

SPEED AND VELOCITY

Give finance teams the ability to move at lightning speed, accomplishing more than ever thought possible, faster than ever imagined.

ERROR-FREE TASK EXECUTION

Remove human-introduced errors from the equation to ensure that transactions reconcile across systems of record.

PURPOSE-BUILT FOR THE FINANCE FUNCTION

Auditoria's solutions were explicitly built for the finance function, with machine learning and natural language processing capabilities that understand finance vocabulary and context for the richest, most reliable AI-enabled finance workflows.

"If we can supplement people's roles with technology that removes the rudimentary tasks and allows them to focus on becoming a more efficient organization — I would buy that technology any day."

— Tyler Sloat, CFO FreshWorks
